Form, function and design are the three main factors that qualify this 28-footer as the ideal family runabout. The swim platform features a recessed stainless steel ladder and there's a transom walk-thru for easy access to the cockpit. This walk-thru flanks an expansive sun pad that easily converts to a relaxing chaise lounge. The 262's seating layout includes a portside bench plus an L-shaped lounge extending from the transom walk-thru around to the companion bucket seat, which faces a glove box and heavy-duty grab rail. Drivers will appreciate the two-tiered helm with a series of gauges above and rocker switches below on both sides of the tilt wheel. All gauges are backlit. Other helm appointments include a VHF radio and compass. Directly behind the driver's bucket seat is a refreshment centre featuring a sink, trash receptacle and two drink holders.

Rounding out the 262 is a spacious, stylish cabin offering a convertible V-berth, clothes locker and enclosed head. ❑
